

Natural Laws on our

Journey of Life

It may feel like life is a series of random events but it's actually orchestrated by a set of natural laws that govern life on earth. Once we understand the Laws we have an understanding of how life works and how we can make our lives work better. In this workshop we'll explore a number of the Laws that nourish us all and help us to co-create the lives we want.

February 2, 2019 2-4 pm \$20
